

Speede® Blocker Pro

Finish Blocker

The Speede® Blocker Pro builds on a solid mechanical design as one of the most popular finish blockers ever sold. It incorporates digital electronics with an easy to use interface providing the accuracy, durability and simplicity that all labs demand. Developed in conjunction with INDO, the Speede® Blocker Pro continues in its tradition as a low maintenance, cost effective blocking solution in the new digital era.

SPECIFICATIONS

Width: 9.5"
Depth: 14.5"
Height: 19"
Voltage: 110V/60Hz - 220V/50Hz
Consumption: 250 WATTS

Features & Benefits

- Parallax-free blocking environment
- OMA 3.02 compatability
- Automatic job cutout confirmation
- Bar code capable
- 40 job storage capacity when linked with Teleform
- Easy to view screen and graphics for more accurate blocking
- User friendly icon based interface
- Shows important shape and decentration data on screen
- Interfaces directly to all A.I.T. edgers
